HIGHWAY BUILDING COMMITTEE - Present-Matt Puntin, Richard Loring and Maggie Howard. The Board approved of Berkshire Engineering investigating the up lands / wet lands area on the property at the Northern corner of the Transfer Station (this is nearest the property owned by the McIntosh family). It was agreed that this portion of the property would be the only area to construct a highway building if there is enough build-able property. Matt will contact Mike Kulig at Berkshire Engineering and get a price for this work; he will send a copy to Molly at the Town Office.

The Board asked Molly to contact the Dept. of Telecommunications in Massachusetts and see if Verizon has lived up to their agreement of fixing the poor communications in Tyringham and other small communities as was outlined in the Verizon settlement.
