Old Business:

We continued working on our town plan. We digitized the survey from the 1990's and began reviewing and editing the questions included in that plan for possible inclusion for our town survey.

*See Town Plan Survey Working Draft for our Town survey notes.

New Business

Tom Cook came to present plans for 35 Cooper Creek. The 35 Cooper Creek home is being torn down and rebuilt. The structure does not meet the setbacks but it is being built on the existing site and therefor is grandfathered in. We approved the plans.

We discussed needing an additional associate member in the event that The Slaters need to recuse themselves from a vote (as we currently have three PB members from the Slater family).

Adjourning: 8:20

Our next meeting will be May 16, 2018

Respectfully submitted, Rebecca Honig
