

Tyringham Conservation Commission

Tyringham, MA 01264

Thursday, September 12, 2019

Members present – Matt Puntin, Reba Schector, Amanda Hamilton, Josh Briggs.

Others present – Rob Hoogs, Barbara Adams, Ben Naylor.

Rob Hoogs was in regarding changes to the Fawcett pool House project on McCarty Road. The changes will be within the 100' buffer zone but will not affect the nearby wetlands. The changes include: installing a dry hydrant, adding a generator and adding one new propane tank and relocating/replacing a second existing propane tank with a larger tank. On the north end they would like to cut and remove three existing maple trees within the buffer zone that are dying, and plant three new trees. Also remove four existing stumps. A recent photo of the site was submitted. Matthew Puntin made a motion to approve the plan changes Amanda Hamilton, seconded. No opposition.

DPW – NOI Berkshire Engineering presented a bundled Notice of Intent that was prepared for the Highway Department. A discussion ensued about the plan and it was unanimously agreed to continue this until Thursday, September 26, 2019.

35 Cooper Creek Road "COC" Matthew Puntin made a motion sign off and Amanda Hamilton seconded, no opposition.

Adjourned at 7:50.

Respectfully Submitted,

Matthew Puntin

Josh Briggs
