

# You can go shopping – for Electric Supply

Electricity consumers in Massachusetts have a choice regarding who provides their electric supply. **The Massachusetts Department of Public Utilities has developed this website to assist consumers in shopping for electric supply products.**

[energyswitchma.gov](http://energyswitchma.gov)

Your electric service consists of two components: (1) supply, associated with the production and purchase of the electricity you use; and (2) delivery, associated with transporting the electricity to your home or business.

You have a choice regarding who provides your electric supply. Regardless of whom you choose for generation Eversource will continue to provide the transmission and billing services.
